

Tutor- marked Assignment C

This is your third Assignment which as before you will send to your Tutor to be marked and commented on: he or she will send you a full report and a Key which should help clarify any difficulties.

Before you start this Assignment, the only one for Module Two, please check over thoroughly all the Activities in the Course so far, especially the Activities you have just done in this Lesson, which are intended to sum up what you have covered so far. If you still have any problems, you can contact your Tutor who will put you right.

As previously, please try not to look anything up once you have started the Assignment, and do it in test conditions. This though difficult will be good for you, and show you your progress in this Course. You will then know whether you are ready for the practical aspects of language, written and spoken, in Modules Three and Four.

How long you take does not matter very much, but please put down the time taken afterwards, this will be a guide for your Tutor in relation to future professional examinations.

As before, the total marks are 100, and the number of marks per question is indicated in the margin. The best of luck in this Assignment, I am sure you will do well!
